Quiz — capstone mail filter

Fillable quiz — type answers in the fields, then save a copy under `my-work/quizzes/` in the course repo. Answer keys are not included.

Complete after the capstone reading. This quiz is **required**. Use the separate answer key only afterward.

1. Name the three policy actions this course uses for outbound messages.

2. What does “first-match-wins” mean for an ordered rule list?

3. Why must tests fail on stubs before they pass on your implementation?

4. Where should finished worksheets and filled quiz PDFs be stored in this repo?

5. Name two Must rubric themes (not row IDs) a portfolio-ready demo must satisfy.

6. Scenario: Your demo only works with secrets hard-coded on your laptop. Which Must hygiene expectation fails, and what do you change?
