# Quiz — course setup

Fillable quiz — type answers in the fields, then save a copy under `my-work/quizzes/` in the course repo. Answer keys are not included.

Complete after `../readings/course_setup.md`. This quiz is **required**. Check the separate answer key only after you attempt every item.

**1.** List three **core** tools you should install before Module 01.

**2.** What command creates a Python virtual environment in `01-challenge-gym`?

**3.** Name the Python test runner used as the contract in Challenge Gym.

**4.** Which modules first need **Node.js** and **Go** respectively?

**5.** Why should cloud credentials never be committed to git?

**6. Scenario:** Your `pytest` command is “not found” outside a venv, but works after `source .venv/bin/activate`. What does that tell you?
