Self-check — OSS & security UX

Fillable quiz — type answers in the fields, then save a copy under `my-work/quizzes/` in the course repo. Answer keys are not included.

1. Expand **OSS**. Name one step before opening a PR.

2. Why is “just make the user click through a scary modal” weak security UX?

3. What honesty rule applies to phishing *education* UIs in this course?

4. Is this module required for Phase A Must rows on the capstone rubric?
